Dear Neighbor,

As the work at our Chelsea Tank Farm progresses, we are writing to further inform you that we will be installing noise mitigation barriers along our fenceline adjacent to the rear of your property within the next few weeks.

While we have already taken steps to mitigate the sound impacts from our work, and recent sound meter readings that we have taken show that noise is within a reasonable range, we are nevertheless adding these additional measures to further reduce the potential impact to you.

If you have any questions about the installation of these mitigation barriers, please contact us at 610-364-8426 or via email at MIPC1@monroe-energy.com. Thank you, and we appreciate your continued understanding.

Sincerely,

MIPC
